PROJECTS

- ❖ **SPOTIFY – A Music Web App**
To further my expertise in web development, I embarked on a project to recreate the engaging and intuitive design of Spotify, a leading music streaming service. Utilizing my skills in HTML, CSS, and JavaScript, I developed a Spotify Clone Web Project that highlights my technical abilities and my commitment to creating user-centric interfaces.
- ❖ **STUDIO WEB – PAGE**
Created a Studio Web Page utilizing HTML and CSS to highlight my web development capabilities. The objective of this project was to design a polished and attractive online presence for a hypothetical studio.
